

Radius Arm Spacer

Nissan Patrol GQ & GU

Designed to fit GQ and GU Patrols with coil front, the Roadsafe Radius Arm Spacer Kit is primarily used to 'push' the front diff forward (approx. 15mm) to give better clearance for larger tyres so they don't hit the front mud flaps and guards. The new version 2, RASWNISV2 Roadsafe Radius Arm Spacers have been designed with longer side walls to 'cup' the rubber bushing more effectively, preventing it from being dislodged, resulting in improved bushing longevity.

In the process Roadsafe has also designed a Radius Arm Bushing Cup. Designed to fit behind the bushing (as per the Spacers), the PATRAMBC simply 'cups' the bushing, and offers the bushing retention option to customers that do not require the Radius Arm spacers.

PATRAMBC fitted to Radius Arm - Cups
Side Wall of Bushing

PATRAMBC

Part Number **PATRAMBC**
Bar Code **9319478598928**
Desc **Patrol Radius Arm
Bushing Cup - does not
provide for spacing**

RASWNISV2 fitted to Radius Arm -
Increased Cupping of Bushing

RASWNISV2

Part Number **RASWNISV2**
Bar Code **9319478598911**
Desc **Patrol Radius Arm
Spacer increased Side
Wall Length over RASWNIS**
