

7 Pin Flat Trailer Adaptors Plugs & Sockets

Bit of an odd addition to the range, but we respond to the demand! A number of 4WD stores have contacted us to stock & sell the 7 Pin Flat Trailer Plugs & Sockets. The flat style is much more effective for 4WD applications purely due to departure angle - less chance of being ripped off because of the lower profile over the round style. So in an effort to give you a price competitive adaptor, that links in with our Mister Hitches range of towing accessories, we have added the 7 Pin Flat Plug & Sockets to the range.

- Plastic
- Screw Cap
- Quick Fit
- Bulk (no Blister)
