

Press Release – Immediate Release 1st January 2012

New “MF” Rod Range from Roadsafe

“See if you can Bend these Mudders!”

Roadsafe, with Australia’s largest front end range, are pleased to introduce the new ‘MF’ Series long rods to their expanding 4WD lineup.

New from Roadsafe the ‘MF’ range consists of Heavy Duty Comp Relay and Track Rods for the Patrols & Cruisers.

Manufactured from 38mm solid 4140 chromoly high tensile steel, the new ‘MF’ rods have been re-designed to offer Hard Core 4wders a stronger alternative.

The ‘MF’ rods are supplied electrocoated, for corrosion and rust resistance, with a satin black finish to follow through the tuff truck look.

These ‘MF’ rods are an awesome addition to the expanding range, and are currently offered for the following applications:

- MF-DL704COMP – Patrol GQ Track Rod
- MF-DL706COMP – Patrol GU Track Rod
- MF-DL700SCOMP – Patrol GQ Drag Link
- MF-DL710SCOMP – Patrol GU Drag Link
- MF-TR4220COMP – Landcruiser 80 series Relay Rod
- MF-TR4410COMP – Landcruiser 80 Series Track Rod

Not only has the rod been changed, the ‘MF’ design has also been altered to now include greasable female ends on most applications, offering greater strength over the standard male ends... making the ‘MF’ rods extremely tough for the average four wheel driver.

ROADsafe

Designed specifically for comp vehicles to take punishment time and time again, the new ‘MF’ rods are a must for those interested in improved strength and handling over Australia’s tough terrain.

Weighing in at over 12kgs each, these ‘MF’ rods will certainly make the underside of your truck look and act tough!
