

Press Release – Immediate Release 21st May 2014

Hitch Up with Roadsafe

Roadsafe Automotive, distributor of Australia's largest range of Steering and Suspension components, are pleased to announce the range expansion of the Mister Hitches towing aids and accessories.

Focusing on East Coast distribution, Roadsafe have plentiful stocks in both Melbourne and Brisbane warehouses. The range consists of standard tow tongues (ball mounts) through to the more exclusive Pin Style Adjustable hitches and the Multi Use hitch.

Tania Allatt, Roadsafe Marketing Manager advised "The Mister Hitches range features products of extremely high quality, priced to be competitive in our Australian market."

The Mister Hitches range comprises a huge variety of towing aids and ball mounts, including two new 4500kg rated "Ion Forged" mounts made from one solid piece of steel. "Ion Forged" ball mounts come in 2" and 4" drops and are rated at 4.5t when used with a 4.5t 70mm tow ball. They can also be used with a standard 3.5t rated ball, with the help of a tow ball reducing bush.

As Tania explains "included in the range is an Adjustable Mount that easily demonstrates some of the quality aspects of the Mister Hitches items including a solid steel shank, dual support gussets for greater strength, 19mm thick ball platform and backing plate, plus a 75mm wide ball platform – all features that work together to create a high quality component and allow for a 25 year warranty to be offered".

Other additions to the range include a 3500kg heavy duty adjustable ball mount, plus the 100-350kg DIY Towsafe Ball Weight Scales, tested to Australian and International Standards AS/NZS 10012:2004. "Now every four wheel driver & caravanner can afford to have his or her own portable ball weight scale for their camper trailer or van" Tania said. "Knowing your ball weight is especially important when loading up or adding additional weight to your trailer or van. Having a ball weight that is either higher or lower than recommended can lead to dangerous consequences due to the potential loss of traction, swaying or even loss of steering control of the towing vehicle".

All of the Mister Hitches products are of exceptional quality, and attractively packaged for retail sale.
