Roadsafe Tools

Ford Diff Support Bush Tool

The GGT550 is suitable for the Removal and Installation of Diff Support Bushings for Ford vehicles including BA-FG & Territory (Front & Rear Bushings). Full set of adaptors supplied.

New Product Information: Part Number GGT550
Bar Code 9334799000196
Desc Ford Dif Bush Tool

Ford Models BA-FG & Territory have a diff mounting arrangement designed to reduce NVH. The diff is located in the frame with 3 large encapsulated bushings and these can be difficult to replace when the bushing wears out. The AWD Territory also has two front bushings in addition to the three rear bushings.

Up to 5 times
FASTER*

The GGT550 is designed for the removal and replacement of the bushings. Supplied adaptors will fit the various models as there are difference between BA & FG models.

* Note: savings are based on standard repair times and a trained operator using the relevant GGT tool. Times may vary due to varying skill levels and competencies.
