

Universal Lift Jack Holder

Suits up to 90mm (3.5") Tube

The Roadsafe Universal Lift Jack Holder has been designed for a universal fit, to bolt up to 80mm OD tube (approx. 3.5"). This fully adjustable tube mount, is a very handy way of safely securing your lift jack onto the bull bar or roof rack for off road adventures, where you might need "quick, easy & often" access to the lift jack! Finished in either Black or Silver, the mount has been designed to suit for a wide variety of options, and can also be used on roof rack or roll bar applications.
