

# Adjustable Ball Mount

## 4000kg - Extra Heavy Duty

Now available is a stronger version of the MH-ABM-5HD because users were weighting the original beyond it's capacity. The new MH-ABM-5XHD now has a ball platform of 25mm thick and 75mm wide. The shank is strengthened by the inclusion of two 9mm thick support gussets. The use of two high tensile 12.9 grade bolts give the hitch additional strength. This new MH-ABM-5XHD Ball Mount has been tested to a downforce exceeding 600kg.

Part Number **MH-ABM-5XHD**  
Carton Qty **1 piece**
