

# Heavy Duty Tow Points

## Holden Colorado RG / Dmax 12-on

The new heavy duty RG Colorado / Dmax 2012-on Tow Points have been made tough. These guys are 5.5 kgs each - and are supplied complete as a bolt on pair. FEA Tested during development and rated to WLL5000kgs, the RP-COLO2 was designed to suit with standard bumper. The point also includes additional bolt holes to cater for the common bull bar bolt locations (additional hardware might be required for installation).
