

WIDE MOUTH FAIRLEAD

NEW BLACK COLOUR

**STANDARD &
25MM OFFSET
WITH 60MM
SPACER
PLATE**

Now Available in a high quality BLACK FINISH, the Roadsafe SB007 Alloy Fairlead has been designed for those situations where you run a plasma rope on a cable style winch & bar with an existing roller style fairlead. Basically the premise is to replace the roller fairlead with the SB007 60mm extended fairlead (available in either original silver or now new black) so the plasma rope clears all the sharp objects etc. & minimises any rubbing on the bar when winching at angles. The setup with the rear 60mm spacer (with fitting points to suit both standard & 25mm offset) has added benefit of being able to be used as a wide mouth fairlead if required.

SB007-B

Part Number SB007-B

RRP* \$199.00

Multi-Fit Fairlead - Black
