

# HD TOW POINTS

## VW AMAROK

The RP-AMA01 points have been designed for fitment on a VW Amarok with factory standard bar. If a Bull Bar is fitted modifications might be required to the bar bracket, and/or additional hardware might be required (longer bolts etc.) to facilitate fitment.

FEA tested during development and Rated at 5000kgs, the Roadsafe Amarok Tow Points when fitted correctly make for a convenient and strong tow point system to assist with recoveries. Always fit and use tow points as a matched pair, with equalising bridle, to maximise safety during a recovery.
