

**VEHICLE** Toyota Hilux SR5  
**MODEL YEAR** 2005 - onwards  
**PRODUCT** Auxiliary Battery Box  
**PRODUCT CODE** BT025-D

## Battery Tray Details

Fits up to N70zz 12-inch case battery or up to 120AH size 4x4 battery.  
Comes with: 6 x 6mm bolts & nuts, 3 x washers, 3 x 4mm bolts & nuts,  
3 x 10mm Thick Spacers, 1 x Battery Hold Down with J Hooks.

1. Assemble the bottom plate using 3 x 6mm bolts. Then assemble top bracket using 3 x 4mm bolts & nuts and place battery tray into desired position.

2. Mark holes and drill, being careful not to drill into the tyre. Because the tub liner is not hard against the inner wheel arch, you need to hole-saw 20mm holes in the tub liner and use 10mm thick spacers between the plate and inner wheel arch. Then tighten 3 x 6mm bolts, washers & nuts into place.

3. Undo the existing bolts in sports bar and re-use to fix bracket at the top of the box.

4. Sit battery into tray and place battery hold down on the top inner corner of the battery. Put J hooks into the corner holes in the battery tray and through the hold down. Then tighten until battery is firmly in place.
