

ON-CAR ADJUSTABLE PANHARD RODS

COMPATIBLE WITH TOYOTA LANDCRUISER 80 SERIES / 105 SERIES 1990-2002

Upgrade your 4WD's suspension with Roadsafe's new On-Car Adjustable Panhard Rods - stronger, lighter, and built for maximum durability. Now featuring on-car adjustability a game changer over previous off-car designs, these rods make fine-tuning easier than ever.

Designed for 4WDs from standard height through to 6" of lift, they correct axle alignment, prevent tyre-to-body contact, and improve handling.

Supplied complete with Steering damper mounts (where required), wrapped bush eyes and High-flex rubber OEM sized bushings with an upgraded hybrid shell—delivering a smoother, quieter, factory-like ride without bush walking.

Upgraded to use Schnorr serrated lock washers and a M27x2.0 fine pitch thread for extra security. Designed with 100mm of adjustment suiting 0-6" lifts, Roadsafe's latest on-car adjustable Panhard Rods offer the ultimate balance of strength, flexibility, and ease of use whilst being completely street legal!

LIGHTER AND STRONGER

GUSSETED BUSH EYES FOR MAXIMUM STRENGTH!
