### TJ ADJUSTABLE PANHARD ROD

The old APR001 was good; the new V2 is better!

#### APR001V2

- Upgraded Tie Rod End for increased articulation (60°)
- 30mm solid bar - an increase of 16.5% rod thickness
- Increased rod length to allow for better adjustability (792-810mm) (OE is 800mm fixed)
- Offset Bushing End for better clearance
