

NEW ROADSAFE 4WD SHOCK ABSORBERS

ROADSAFE have been specialising in bringing quality, trusted steering and suspension parts to the Australian automotive market for over 40 years. With the same passion and expertise, ROADSAFE introduces a new high quality competitively priced shock absorber range that you can trust.

FEATURES

HIGH QUALITY RUBBER BUSHINGS

Reduces noise, vibrations and harshness. Ensures stable mounting.

THEY'RE BIG

Featuring greater surface area for heat dissipation and excellent dampening control properties.

EXTREME BIG BORE

Greater oil capacity improves temperature control during extreme operation.

HEAVY DUTY MOUNTING POINTS

Double welded for increased stability and strength.

FOAM CELL TECHNOLOGY

Reduces cavitation and aeration, delivering a smooth enjoyable ride.

HIGH QUALITY UPPER SHAFT SEAL

Designed to handle the demands of rugged terrain.

PISTON ROD GUIDE

Larger surface supports increased side load and greater impacts.

LARGE DIAMETER, HIGH QUALITY CHROME FINISHED SHAFT WITH INTERNAL ROD STOP

Hard chrome finish eliminates wear and resistant to chipping. Allowing for smooth sealing operation with minimal drag.

SEAMLESS PRESSURE TUBE

Precisely cylindrical and smooth with high burst pressures, resulting in consistent performance and reliability.

HIGH PERFORMANCE SHOCK ABSORBERS FOR 4WD'S & OFF ROAD DRIVING

- Tried and tested locally for Australian conditions - Built for Aussie Terrain
- Backed by a comprehensive 3 year / 100,000 km warranty
- Direct OE replacement ensures a guaranteed fit
