

NEW ROADSAFE STR SHOCK ABSORBERS

SHOCK ABSORBERS FOR PASSENGER VEHICLES AND THE DAILY DRIVE

ROADSAFE have been specialising in bringing quality, trusted steering and suspension parts to the Australian automotive market for over 40 years. With the same passion and expertise, ROADSAFE introduces a new high quality competitively priced shock absorber range that you can trust.

- Tried and tested locally for Australian conditions - Built for Aussie Terrain
- Backed by a comprehensive 3 year / 100,000 kilometre warranty
- Direct OE replacement ensures a guaranteed fit
- Precisely tuned valving delivers improved comfort and control

FEATURES

Seamless Pressure Tube

Precisely cylindrical and smooth with high burst pressures, resulting in consistent performance and reliability.

High Quality Piston Rod Guide

Guarantees precise, smooth operation and superior strength against side loading.

High Quality Rubber Bushings

Reduces noise, vibrations and harshness. Ensures stable mounting.

Piston Rod Assembly High Quality Chrome Finished Shaft

Hard chrome finish to minimise wear and increase resistance to chipping. Allowing for smooth sealing operation with minimal drag.

Precisely Tuned Valving

Delivers improved comfort, control and handling.

Nitrogen Gas Charged

Provides exact, consistent valving forces.

AVAILABLE IN

SEALED STRUTS | TELESCOPIC SHOCKS | SPRING SEATED SHOCKS

Shock type availability determined by vehicle specifications
