

# Coil Strut Spacers

Installation of Coil Strut Spacers is the ideal way of generating lift on vehicles with strut front end. Coil Strut Spacers bolt to the top of the Strut, and maintain full articulation of the front end. You can lift the front end, to even out the nose dive appearance, whilst still employing stock suspension.

## Covering the 5 most asked about applications to start...

CSS-HIL10	Toyota Hilux 05-07 - Coil Strut Spacer 10mm (approx. 20mm lift)
