

Toyota Prado 120 Battery Tray Upgrade

In line with customer requests, we have upgraded the Prado 120 Battery Tray to now include an additional bracket. The new guard bracket runs from the battery tie down to the front radiator support. This is an ongoing upgrade, that will be applicable to new produced May stocks. Existing stocks will be supplied with the original kit & do not include this additional guard bracket. Guard brackets for BT014 trays are available at a nominal cost if you would like to upgrade your current stocks. Ask for Part Number BT014GB.
