REAR UPPER CONTROL ARMS COMPATIBLE WITH NISSAN PATROL GQ & GU

TANP47B

TANP47B is a fixed position bent upper control arm compatible with GQ & GU Nissan Patrols that are fitted with an aftermarket long range fuel tank underneath the vehicle alongside the chassis rail. TANP47B is suitable for standard height vehicles, including some raised ones (up to 2"). Raised vehicles have different clearances depending on the suspension fitted, tank design and subsequent overall general clearances which must be identified by the installer to ensure correct fitment.

Part Number TANP47B

Nissan Patrol GQ & GU
Barcode 9319478534322

RRP* \$145.00

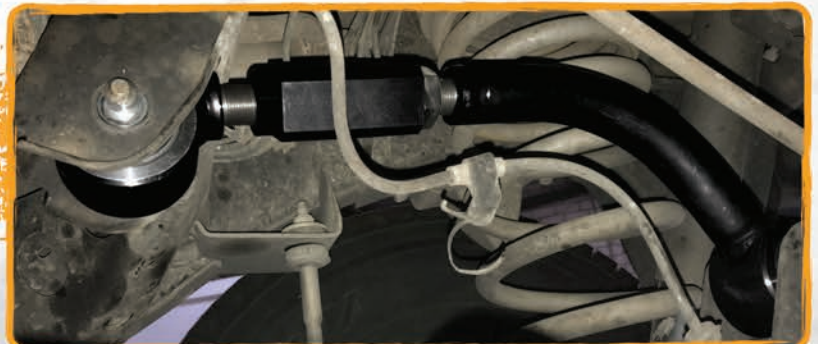

TANP48AB

For significantly larger lifts we have TANP48AB which has a substantial bend offering increased clearance to TANP47B. TANP48AB offers 'on vehicle' adjustment to correct pinion angle on the larger lifts. The TANP48AB arm must be fitted with a 100mm bumpstop spacer (not supplied) to maintain correct clearance from arm to chassis. Premature failure will be experienced if the arm is incorrectly adjusted and/or an appropriate sized bumpstop spacer is not utilised.
