HEAVY DUTY UPPER CONTROL ARM COMPATIBLE WITH TOYOTA HILUX (GUN/KUN) & FORTUNER

The new UCA3881H-TOUR has a minimal increase in caster of 1 degree over OE to minimise issues with wheel to guard clearance often encountered on Hilux/Fortuner's with larger aftermarket tyres. The "TOUR" product still offers all the features and benefits found in the original UCA3881H design which is better suited to enthusiasts chasing performance handling with a 3 degree increase in caster & willing to modify for additional tyre clearance as required. The all new UCA3881H-TOUR is a great problem solver for a bolt on option!

- Ideally suited to Touring vehicles with minimal modification
- 1 degree increase over OE in caster correction
- Fixed position ball joint avoiding issues associated with adjustable type arms
- Maintains OE specification ball joints & bushings
- Continues to offer improved internal & external clearances

Part Number UCA3881H

Upper Control Arm – 3 degrees caster

Barcode 9319478635159

RRP \$799.00

Part Number UCA3881H-TOUR

Upper Control Arm – 1 degree caster
