BRAKE PROPORTIONING VALVE BRACKET COMPATIBLE WITH TOYOTA HILUX 2005 - ON

Roadsafe have extended the range of existing Patrol / Cruiser Brake Proportioning Valve Brackets to include a new adjustable version for the Hilux '05 - on.

The Roadsafe BPVHIL has been manufactured 300mm long centre to end, with adjustable thread, to allow for the bracket to be trimmed to the desired length (allowing for an additional 100mm of adjustability).

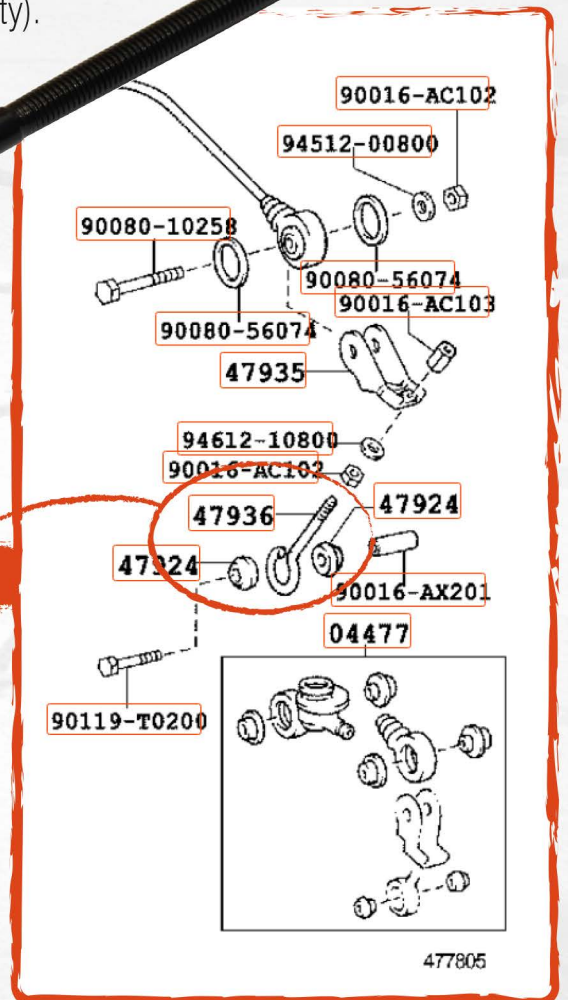

Replaces OE part number 47936-0K020 (genuine number used for reference only).

Setup of the new link needs to be referenced from the original part prior to removal.
