

TRED RECOVERY BOARDS

TRED is the ultimate all-in-one off road recovery device, specially designed to get your four-wheel drive, ATV and equipment out of trouble when traction is lost in sand, mud, sludge, or slime. Engineered and manufactured in Australia from only the highest quality materials, TRED's are designed to handle intense levels of torque, flex, weight and impact. Intense reviews of every fine detail in the design process make TRED the best choice for your recovery. With a designated shovel feature, extreme hex grip nodules, aggressive ramp entry teeth and ultimate wear resistant properties, TRED will allow you to explore with confidence, without letting traction disrupt your journey.
