ADJUSTABLE BUSHED TRAILING ARM COMPATIBLE WITH TOYOTA LANDCRUISER 200" SERIES

A considerable upgrade from standard factory specs the New Roadsafe designed adjustable length Rear Lower Trailing Arms for Toyota Land Cruiser 200" are now available. The new lower arms are suitable for vehicles from standard height to 6" lift. Featuring on car adjustment, factory spec high flex rubber bushings and a Heavy Duty solid 36mm 300MPA arm, the Roadsafe arms offer you a tough alternative to your standard factory items.

**LIFETIME WARRANTY
AGAINST BENDING**

FEATURES

- Finished in Black E-coat for corrosion resistance and discreet fitment
- HD ADJ Roadsafe arms are legal under NCOPV3/VSB14
- On car adjustable from 690-770mm centre to centre of bushing
- Spanner flats included for easy adjustment
- OE spec Rubber bushings included
- DOM tube bushing apertures
- Avoid the common bending of the standard factory arms, and the ongoing pinion issues, by upgrading to Roadsafe arms
